

## **Aim high – AI Program for Female Founders**

If you are a female entrepreneur of an early-stage startup – this is your chance to **Aim high!**

Amazon Web Services and Yazamiyot – Women Entrepreneurs are proud to launch "**Aim high!**" – an exciting, first-of-its-kind program designed especially for female founders who want to take their ventures to the next level.

In this practical, hands-on program, startups will be given a chance to learn from AWS AI/ML experts, work with them to implement cutting-edge technologies and build confidence around technical know-how to expand AI aspects of their products. Putting AI/ML in the center, the program will also address technical and business mentorship, Go-To-Market, AI-related recruitment and fundraising.

Who can apply?

- 👍 Early-stage female-founded startups. We also welcome non-technological female founders to join with their CTOs.
- 👍 Companies with a working MVP.
- 👍 Startups that have an AI/ML use case and/or wish to put AI/ML technologies in the center of their product.
